Zenna

// Irish-born producer blending psychedelic groove with deep, hypnotic electronic rhythms. □□□ //

Biography

Irish producer Jack O’Connor has been performing and producing electronic music for over 8 years under the name Zenna. Currently based in Barcelona he operates from his recently built beachside studio where he creates his unique groove of psychedelic beats. With a depth of style traversing psytech, deep tech, progressive house & minimal techno Zenna amalgamates this vast territory with a distinctive signature flair characterized by deep grooves, hypnotic rhythms, driving basslines and the perfect seasoning of psychedelia.

Appearing for the first time at Dublin’s Yamamori-Tengu, Zenna went on to move some of the city's most prolific dance floors with notable performances at Pygmalion, Berlin D2, Opium, The Sugar Club and The Bernard Shaw before relocating to Barcelona. His international touring has brought his music to Ibiza, Berlin, Kenya, Portugal, Barcelona, Sri Lanka and the USA with a homecoming for his debut festival performance in Ireland at Fuinneamh Festival.

Zenna’s production debut *About You* and *Dawn Moon* released with When We Dip’s TOR imprint. He later appeared on Roth Sounds from Tulum’s renowned Azulik Creative Collective with a meditative, ambient/organic 2-track EP *Oceana* and soon returned to Roth Sounds with a 3-track EP *Amarna*. The standout track *Anubis* reached #36 in the Deep Tech Minimal Beatport charts.[^1][^2] His catalogue has since expanded with releases on Badwizad Records, ChillRave Records, Poison 777, LW Recordings, Equate Recordings and Oxhala Records, reflecting a steadily evolving sound rooted in groove, atmosphere and hypnotic movement.[^3]
