

San Nicolás

✂️ Uruguayan minimal techno architect and founder of PRYZM Records. 🇺🇾

Biography

San Nicolás is a Uruguayan DJ and producer specializing in minimal and dark techno. Emerging in the late 2010s, he quickly established himself with a series of releases on underground imprints before founding his own label, PRYZM Records, to showcase cutting-edge minimal sounds. His productions are characterized by hypnotic basslines, stripped-back percussion, and cinematic atmospheres, earning him recognition across Europe and Latin America.

In 2024, he released the full-length album **My Name** on Shadow Wulf Records, a conceptual work exploring themes of identity and disconnection. His tracks have also appeared on respected compilations such as **SUBilation Vol. 9** and **Best of 6 Years**, cementing his reputation as a rising force in the global minimal techno scene.

San Nicolás has performed at underground showcases across South America and Central America, including The Secret Garden Festival in Guatemala, and has shared lineups with artists like Monococ and Maksim Dark. His music continues to gain traction on Beatport charts and in DJ sets worldwide.
